

Art.Nr.103136

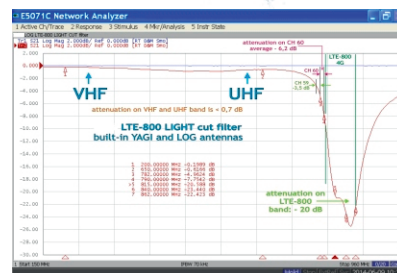

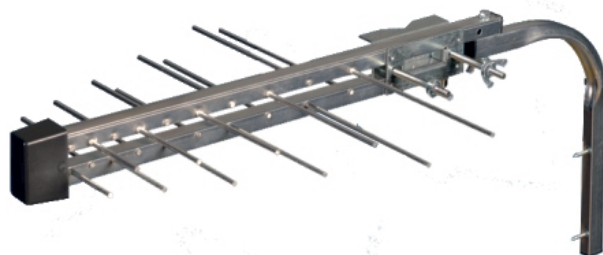

DVB-T Außenantenne mit integrierten 20 dB Verstärker und LTE Filter

*DVB-T outdoor antenna
including integrated 20 dB amplifier*

SN 20 V LTE

logarithmisch-periodische
Antenne zum Empfang von
digitalen Fernsehsignalen (DVB-T)
im UHF Bereich.. Eingebauter
20 dB Verstärker

Montage horizontal oder vertikal am
Mast möglich, oder mit beige packten
Wandhalter.

LTE Filter 800

Frequenz 791-862 Mhz - 20 dB

Kanal - 3,5 dB CH 59 und -6,2 dB CH 60

How system "SWITCH" works:

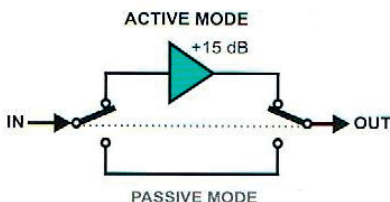

Example: Antenna P-20 G-SWITCH

1) Low UHF signal:

Switch ON Power supply (5-24 V DC)
Gain = Antenna + amplifier = 22,5 dB(i)

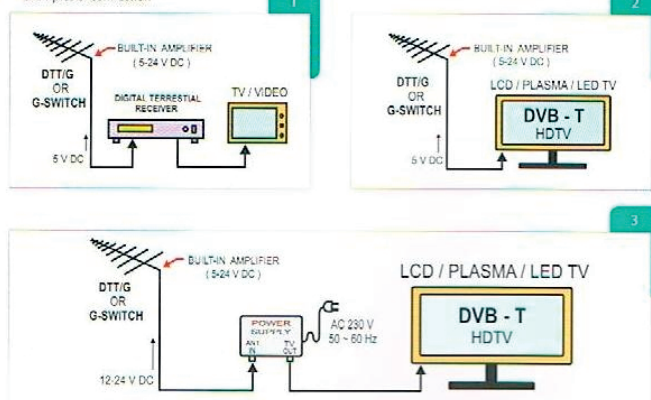

2) Strong UHF signal:

Switch OFF Power supply (do not need it)
Gain = Gain of antenna = 7,5 dB(i)

Inhalt:
DVB-T Antenne SN 20 V
H/V Mastschelle
Wandhalter
F-Stecker + Gummitülle

Examples of connection

Log-periodic antenna
should be used for digital TV device
(DVB-T) as outdoor antenna only
Freq.range 470-862 Mhz.
horizontal/vertical mounting,
can be use for both polarizations.
including integrated 20 dB amplifier
and wall holder.

includes:
DVB-T antenna SN 20 V
H/V bracket
wall holder
F-male plug + rubber grommet
